CRAFT-BILT • OVER 70 YEARS OF AMERICAN MANUFACTURING

A new generation of SHADE...

...flawlessly designed, expertly manufactured and professionally installed

Precision made by Craft-Bilt Manufacturing Company, a leading American manufacturer of home improvement products since 1946, Aristocrat® Awnings, Shades and Canopies are manufactured utilizing the latest advancements in technology, electronics and engineering. The result is beautifully crafted and long lasting products truly worthy of their Aristocrat name. From cool shade to extra space, we have the solutions to improve outdoor living.

Our customers tell us that they choose Aristocrat because of the quality and durability of our offerings and the longevity of our company. Meticulous care is taken in each step of the manufacturing process to ensure that everything leaving the factory meets your and our high standards. There's a reason why we offer the strongest warranty in the industry, including 12 years on our Northport fabric line and a lifetime transferable warranty on frames.

RETRACTABLE AWNINGS

Decks and patios are the perfect place to spend quality time with your family, entertain your friends or just relax on warm, sunny days. Under the cool shade of an Aristocrat Awning, you can continue to enjoy the outdoors, even on the hottest days of summer. Relax outside, where an awning will protect you from the damaging rays of the sun.

Our awnings also add beauty and value to your home. With multiple models, features and options, custom sizes and over 100 different exclusive designer fabrics, you can select the perfect awning to complement your home and fit your individual needs, style and budget.

Did you know that awnings

- Block harmful UV rays that cause skin cancer by as much as 94%
- Reduce indoor temperature by as much as 15 degrees
- Reduce solar heat gain from windows during direct sunlight by as much as 70%
- Cut cooling costs by as much as 52%
- Protect your furnishings and artwork from fading
- Protect wood decks from fading and cracking

“We had an Aristocrat Awning at our last house and wanted another one for our new home. We always say to not mess with success. With how much we loved the first one, buying the second was an easy decision. Thank you for a quality product.”

William and Barb Sagan, PA

WINDOW / DOOR / PORCH AWNINGS • DROP SHADES

Enhance your home's appearance with our Window, Door and Porch Awnings or the sleek elegance of Drop Shades

Window and Porch Awnings protect your home's valuable furnishings from fading and can substantially lower air conditioning costs by blocking the summer sun from heating your window glass and transferring that heat inside your home.

Door Awnings provide shade and shelter outside your front and back door, keeping your entryway dry and clear of debris. Choose from a variety of awning models and sizes and over 100 exclusive designer fabrics to add a distinctive look to your home.

COTTAGE® AWNINGS

Drop-arm retractable awnings allow you to control the amount of the sun's light and heat entering your home. They can be adjusted to any position, blocking glare from the sun whether it's in the morning, throughout the afternoon or into the evening.

DROP SHADES

An economical addition to your favorite outdoor areas, Drop Shades add sun protection, create additional privacy and can even help block rain and wind on your porch, deck or patio. They can roll up, or retract back into a sleek cassette when not in use.

STATIONARY AND BASKET AWNINGS

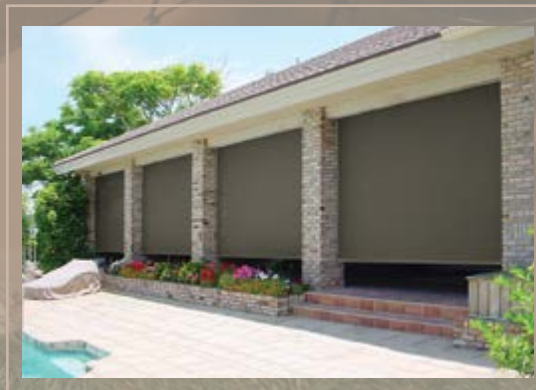

Above your doors, windows or porches, these stylish awnings provide year-round protection from the sun and rain. Durable, like all of our shade products, and manufactured to withstand the elements, stationary and basket awnings complement the exterior look of your home.

"We love the look of our window awnings. They are so easy to open and close, all we have to do is push a button."

Carol DeSimone, CT

EXTERIOR SOLAR SHADES

Control the sun's heat before it hits your windows

Glass windows and doors allow you to enjoy your natural surroundings, but they also let in heat from the sun and increase your cooling costs. Solar Shades improve the efficiency of your windows and doors by filtering out the sun's heat before it reaches your glass. They also add privacy, while still preserving your beautiful view to the outdoors.

Our exterior Solar Shades are custom manufactured to cover your windows and doors with a variety of cassette and guide options, sizes, colors and exclusive designer fabrics to keep the sun out!

"My Solar Shades are absolutely perfect for my west-facing deck. They keep the afternoon heat and sun to a minimum. I chose a color that even matches the siding and trim of my house. I love them."

Randall Krentz, WI

HORIZONTAL SHADES

Add privacy and sun protection from the side

Most shade products protect you from overhead sun, but the morning and evening sun can be just as harsh. Horizontal Shades are pulled sideways, so you and your family can enjoy morning coffee, lunch or dinner without squinting from the glare of the sun. With semi-transparent screen fabric, or non-transparent, solution-dyed acrylic, add privacy to your outdoor areas, or obscure less than perfect views. Simply pull the shade from its side cassette and hook it onto either a wall or floor-mounted post.

Horizontal shades have numerous applications. They can be mounted to your existing structure, our Aristocrat Canopy or Tension Shade Systems and wall-mounted to add side shade under your Patio Awning.

The easy-pull system and roller wheel enables the shade to easily glide across the ground. A safety brake will stop the shade from rolling up if it is accidentally released, preventing damage to the fabric.

MOTORIZED SCREENS • ZIPPER SOLAR SHADES

Transformable spaces . . . go from an open porch or patio to a screen room in seconds

Our Solar Shade Series II “Zipper” system creates a completely closed, retractable screen room, keeping out unwanted pests while dining or simply enjoying the outdoors. With the touch of a button, transform your porch, patio or garage into a screen room. When not in use, the screens retract inside a protective cassette, opening up your space to the outdoors. With motorized screens, you can have the best of both worlds, an open porch or garage when you want one and a screen room when you need one.

CANOPIES • PERGOLA CANOPIES • UNDER-PERGOLA SYSTEMS

Create your own tranquil oasis - cool, covered and comfortable

Aristocrat's innovative canopy system offers vacation-like comfort in the convenience of your own backyard. Our freestanding Canopy can be placed almost anywhere in your yard, offering a secluded spot to enjoy the outdoors; or, it can be attached to your home for added sun protection where you sit and relax most often. The Under-Pergola Canopy system can be installed beneath existing structures to provide a shaded area. Canopies are a flexible shading solution for any outdoor living space: on your deck or patio, in the yard or by the pool.

The added shade will provide comfort and protection to you and your loved ones by blocking up to 94% of UV rays, which can lead to skin cancer.

- The addition of decorative rafters transform a Canopy into a Pergola Canopy
- Choose from over 100 exclusive designer fabrics and add shade under your existing pergola or structure with our Under-Pergola Canopy system
- Side Curtains or Solar Shades can be added on any or all sides for additional privacy and sun protection

With some of the largest fabric areas, a Tension Shade System is an efficient way to shade your next picnic, family get-together or your favorite place to sit outside and enjoy a refreshing beverage on a warm summer day.

TENSION SHADE SYSTEM

Transform your outdoor living space into a shady retreat

Reclaim the outdoors from the sweltering sun with our newest innovation in shade solutions, the TS and TS2. They add a modern look and feel to the traditional awning and are engineered to cover large decks, patios, pergolas or glass roofs. Enjoy summer days without the heat and harmful rays of the sun while relaxing with a good book or catching up with family and friends.

"It looks great and really cools our deck when extended."

Charles Jorgenson, IL

With the push of a button, fabric glides smoothly along the rigid framework and when shade is no longer needed, the fabric retracts into its cassette, where it is protected from the elements.

Custom manufactured with over 100 exclusive designer fabric options, it's easy to find a style that suits your home.

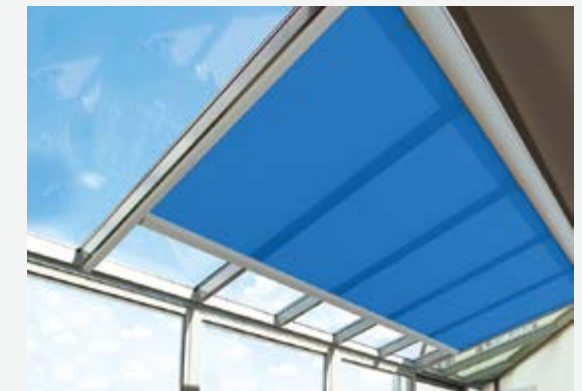

With two Aristocrat Tension Shade systems (TS and TS2) to choose from, pick the model that best fits the needs of you and your family.

TS

- Must be mounted above or below an existing structure
- Perfect for adding shade to existing structures

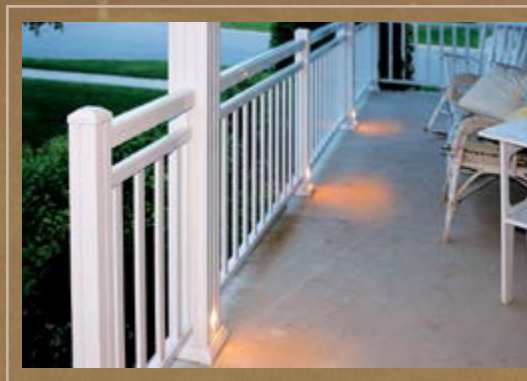

TS2

- Can be mounted above an existing structure, or to a wall with a support structure
- Horizontal shades or Solar Shade Series II can be mounted to the TS2 leg system

ALUMINUM & GLASS RAILINGS

Increase the beauty and elegance of your home's exterior

Add the perfect complement to your home with our Aluminum and Glass Railings. When quality and durability matter, these fully engineered structural railings are a stylish addition for your primary or vacation home. Beautifully crafted and maintenance-free, our railings are custom built on-site to provide a seamless blend with the architecture of your home.

- Fully engineered structural railings in your choice of color-matched aluminum pickets or tempered glass panel railings
- Our unique crossover means that the handrails run over the posts for a straighter, stronger railing that has fewer joints than other systems
- Frame colors: White, Desert Sand, Earthstone, Black
- Tempered glass panels in clear, tinted or frosted
- Posts in 2 1/4", 3" or 5 1/2" widths
- Pickets available in widths of 5/8" or 1 1/2"

SCREEN ROOMS

Rediscover all that is wonderful about outdoor, bug-free living

Breezy Screen Rooms make it easy to enjoy the serenity of the outdoors without worrying about unpredictable weather or the nuisance of insects. Add comfortable living space for you and your family to relax outdoors and enjoy the fresh air, even on rainy days.

- Maintenance-free enamel finish that never needs painting
- Heavy duty aluminum frames
- Fully engineered, code-compliant roof panels
- Frame colors: ☐ White ☐ Desert Sand ☐ Earthstone
- A-frame (gable) and Studio (slope) roof options or screen in under your existing porch roof
- Built-in, color-matched gutters
- Swing style door with lock
- Screen types: Fiberglass, aluminum, pet screen or “no-see-um” screen
- 1 ¾” aluminum panel or screen kneewall

PATIO COVERS • CARPORTS

We've got you covered! Aristocrat Patio Covers shield you from the harsh sun and rain and help protect your outdoor furniture from fading and weather damage. A less expensive alternative to a garage addition, Carports protect you and your car from sun, rain and snow as you load and unload your vehicle in inclement weather.

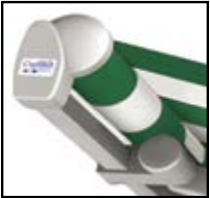

- Maintenance-free enamel finish never needs painting
- Fully engineered, code-compliant roof panels
- A-Frame (gable) and Studio (slope) roof
- Built-in, color matched gutters

At Aristocrat, we pride ourselves in being a little different from other shade product companies, and those differences are important. Our offerings are about options and choices to customize the look of your awning and the level of protection you would like for your fabric.

ESTATE FRAME OPTIONS

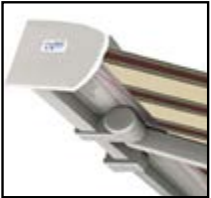

Our most popular awning, the Estate, can come as a base model, with a tray, with a hood and tray or with a back, hood and tray.
